Discover Northern Corsica

From our Marina in Scarlino, it is easy to reach the 7 islands that make up the Tuscan archipelago.

Scarlino, in the province of Grosseto, is a delightful medieval village perched on Monte d'Alma (250 meters above sea level) made up of alleys and streets rich in history. The village also has a modern tourist port (the port was already used in Roman times) equipped with all comforts and services: clubs, beauty farms, shopping galleries, restaurants on the sea, and beautiful beaches, such as Cala Violina, considered one of the most beautiful in the Maremma.

NORTHERN CORSICA

The first port of arrival is Bastia, a small town that can be comfortably explored on foot in a couple of hours, surrounded by beautiful beaches. From there, moving towards Cap Corse, we find Centuri, a village where life seems to have remained suspended: a small port with a few houses around. This is the wildest and least touristy part of Corsica. Going down the north coast of the island, we come to Ile Rousse, the "red pearl" of upper Corsica, a small town overlooking the sea that turns into shades of purple at sunset.
