SUGGESTED ROUTES

Scarlino, in the province of Grosseto, is a delightful medieval village perched on Monte d'Alma (250 meters above sea level) made up of alleys and streets rich in history.

The town also has a modern tourist port (the port was already used in Roman times), equipped with all comforts and services such as clubs, beauty farms, shopping arcades, seaside restaurants and splendid beaches, such as Cala Violina, considered one of the most beautiful in the Maremma.

From our marina in Scarlino it is possible to easily reach the 7 islands that make up the Tuscan archipelago

Elba Island and the Tuscan archipelago

The island of Elba is the largest of the archipelago, just 10 miles from the Italian coast, followed by the island of Giglio and Capraia, famous for its rugged cliffs and isolated beaches.

In order of size they then follow: the island of Montecristo, Pianosa, Gorgona (the northernmost) and Giannutri (the southernmost and crescent-shaped).

The seven islands, plus the ants and the rocks that emerge together form the largest protected marine park in Europe, a true sanctuary for rare birds, dolphins and whales.
